CRICAGO, Oct. 21.—S. Y. White & Co. as follows: The market to-day has been somewhat disappointing to the bulls, but we see no reason to change our views as to its going lighter in the near future. There has been free realizing and probably a good deal of short selling and the price has yielded, but the general conditions are strong, as every one admits, and what is more to the point for the time being than are indications that trade is broadening, and that there is a large contingent ready to buy every time the market weakens. The price does not always respond as quickly as we anticipate, but so far it has borne us out in the end, and we have faith to believe it will continue to do so. Lackawanna, during which it declined 11%

New York.

New York, Oct. 21.—Cotton.—Messrs. Hubbard, Price & Co., in their cotton circular to-night, say: "There has been rather a revolution of feeling to-day with regard to the prices of cotton. It developes that since yesterday morning nearly all the cotton sold upon the basis of about 10 cents for January, estimated at over 3,000 bales, has passed into the hands of parties who are supposed to have been buying for Wall street account, and as the shorts commenced to realize this they have gradually covered. Liverpool opened irregular; spot sales are only 5,000 bales. Futures closed lower by four to five points. Receipts at ports to-day estimated at 60,000 bales agains; \$3,220 bales last week and 68,911 bales last year. The spot market is easy at unchanged prices: midland uplands, 104; sales, 329 bales. Transactions in futures 100,000 bales. Messrs. Hardy & Roller,
Proprietors Chase City Lithia Water.
Gentlemen,—On my arrival nere from my
home, Bloomfield, Ky., the 11th of this
month, I met my neighbor, Mr. John D.
Wakefield, of Spencer county, Ky. Mr.
Wakefield has, to my own personal knowledge, been in very bad health for seven or
eight years, and during that time treated
by some of the most eminent physicians of
Kentucky. His nervous system was affected, complicated with Bright's disease of the
kidneys, and it appeared at one time that
he would lose one of his kidneys entirely.
He was as near death as a man possibly
could be. He tried some of the celebrated

he would lose one of his kinneys chaired,
He was as near death as a man possibly
could be. He tried some of the celebrated
mineral waters of this country and obtained only temporary relief.
He visited this place and has been using
the Chase City Lithia Water since 24th of
April, 1890, and, so far as I can now disc-ver, he has complete relief. His complexion healthy, action improved, appetite
restored, rest tranquil, and spirits revived.
Hes general condition indicates a restored
and invigorated man, attributable to the
use of the Chase City Lithia Water.

Very respectfully,

James R. Hughes, M. D.

I fully concur in the above statement of Dr. Hughes, and I am so much assured of the great benefits derived from the use of the Chase City Lithia Water in effecting a CURE, hitherto despaired of, that I have determine to bring my family here from my home i Kentucky to reside for some time. I a tribute my restoration to health solely t the use of this water.

GREAT NATURAL ADVANTAGES

and in it, and for it an Improvement Company amply provided with means and every other necessary facility to put Eikton in the van of the industrial cities of the South.

The company's charter name is THE ELKTON IMPROVEMENT COMPANY. Its minimum. mum capital is \$50,000; maximum capital, \$1,000,000. Pand-up capital, \$400,000, of par value of \$100 per share. The actual cost of the 1,900 acres purchased and contributed by the ompany was only \$150,000 in money and \$40,000 in stock.

The lands, as stated, are unsurpassed in natural advantages, being located in the riches agricultural, mineral and timber region of the Old Dominion. It is watered by the Shenandoah river and several remarkably cold springs, the latter of which afford an ample supply of the finest water, which can be introduced by natural gravitation. The largest of these springs is the famous Elk Lithia, with its source a mile from the centre of the town and 75 feet elevation. Its flow is 1,000,000 gallons every twenty-four hours. The analysis by Prof. M. B. Hardin, of the Virginia Military Institute, shows it to be a healthy medicinal water of the highest value. In close proximity to the town the company has leased 700 acres o valuable mineral lands and will at once develop the fron and manganese beds on the property. In the surrounding section copper, lead, cement, marble, sandstone, limestone, ochres, clays, &c., abound. Besides the rathroad facilities afforded by the Shenandoah Valley road a fund sufficient is assured to build a road from Eikton to a connection with the Baltimore

and Onio at Harrisonburg, thus affording competitive railroad advantages, which it is thought will be still further improved at no distant day. ESTABLISHED ENTERPRISES.—Among the enterprises already established at Elkton are an extensive tannery, employing 100 hands, which has been in successful operation for rears, and which consumes three to five thousand tons of back per annum; a large planing nill; flouring mills, carpenter shops, brick yards, wheelwright shops, harness and saddle nanufactory, &c. There is already an admirably conducted hotel at Eikton, and the Eikton mprovement Company is now having constructed, on a commanding location, an elegan noted to cost about \$50,000, to be first-class in all of its appointmen's. It will be surrounded

by a splendid park and grounds, sloping down to a beautiful stretch of the Shenandoal river, which will be utilized for boating, fishing, etc. OTHER INVESTMENTS .- Three building companies have been organized with a paid up capital of \$50,000 each, which guarantee to expend \$12,500 each in the construc-tion of buildings every six months, thus insuring the expenditure of \$150,000 upon the town site in two years. The company has also authorized the use of \$250,000 of the company's assets in alding the location of industrial and manufacturing enterprises upon the

ompany's property. The officers of the company are: S.P. H. Miller, of Elkton, President; Thomas K The officers of the company are: S. P. H. Miller, of E. Kon, President; Thomas K.
